Safeguarding Principles

- **Empowerment** - Presumption of person led decisions and informed consent.
- **Protection** - Support and representation for those in greatest need.
- **Prevention** - It is better to take action before harm occurs.
- **Proportionality** – Proportionate and least intrusive response appropriate to the risk presented.
- **Partnership** - Local solutions through services working with their communities. Communities have a part to play in preventing, detecting and reporting neglect and abuse.
- **Accountability** - Accountability and transparency in delivering safeguarding.

Other examples of abuse include:

- Hate crime (acts of violence or hostility directed at people because of who they are or who someone thinks they are)

Self neglect

Examples: self neglect can sometimes be as a result of a person's choice of lifestyle and covers a wide range of behaviour including neglect to care for one's personal hygiene, health or surroundings and can include hoarding when it becomes extreme (including animal hoarding). In these circumstances there is no abuser.

Possible indicators:

- Creating a hazardous situation that would likely cause serious physical harm to the adult or cause substantial loss of assets

Organisational/Institutional abuse

Examples: Neglect, poor practice within an institution such as a care home or hospital and also poor practice in relation to care provided in the adult's own home. This can be only one incident or a series of incidents which are neglect or poor practice as a result in organisations poor policies, procedures and practice.

- No flexibility in bedtime routine and/or deliberate waking
- People left on a commode or toilet for long periods of time
- Inappropriate care of possessions, clothing and living area
- Lack of personal clothes and belongings
- Un-homely or stark living environments
- Deprived environmental conditions and lack of stimulation
- Inappropriate use of medical procedures such as enemas, catheterisation
- Batch care - lack of individual care programmes

Domestic abuse

- The Home Office definition of domestic abuse (2013):
- Incident or pattern of incidents of controlling, coercive or threatening behaviour, violence, or abuse by someone who is or has been an intimate partner or family member regardless of gender or sexuality
- Includes psychological, physical, sexual, financial, emotional abuse; so called 'honour' based violence; Female Genital Mutilation; forced marriage
- Includes anyone aged 16 or over
- Many people think that domestic abuse is about intimate partners, but it is clear that other family members are included and that much safeguarding work that occurs at home is, in fact is concerned with domestic abuse.

Modern slavery

Modern slavery includes slavery, human trafficking, forced labour and domestic servitude.

- Traffickers are those who arrange for the people to move from place to place to do the tasks that they are made to do. It includes moving within the UK and doesn't have to be from abroad. You may often hear the words 'harvesters' or gardeners' used in relation to the victims of modern slavery being made to grow and look after cannabis farms. Very often the traffickers trick victims into believing that they are arranging for them to have a better life and genuine employment.

If you think that someone is the victim of Modern Slavery ring the Modern Slavery National Helpline on 08000 121 700.
